
a
Residual alone prefers
a finer, wrong lattice
2× harmonic,
not fundamental
lowest residual
E[k]=20.7
selected
c=28.8 ms
passes geometric test
RMS residual (ms)
iteration step c (ms)
b
Recovered counts follow the
law the algorithm induces
geometric law
recovered, RP2040
instrumented counter (x86 host)
share of signatures (%)
rejection-sampling iterations k
c
Inversion is reliable only when
jitter is small next to the step
RP2040
0.73%
host
487%
always inverts
abstains on some runs
3% error
mean |E[k] error| (%)
timing jitter / iteration step (%)
